Controlled Access Areas – Actions and Compliance

Driver or Rider of Record is responsible for the conduct of all persons registered for their team including all essential team personnel and air support crews. This includes adherence to all Health Measures of the Bio-Security Protocols while in controlled access areas. If any team member is found in these areas not complying with the Bio-Security protocols, the team will be penalized 15 minutes for the first occurrence and will be disqualified (DQ'd) if a second infraction of protocols is observed.

TIME PENALTIES – Following sections outline different types of infractions that will result in time penalties. Time penalties are added to your actual recorded on-course time to determine overall finish position.

A Driver or Rider finishing within the **50 Hour Time Limit**, but who exceeds this time limit when penalties are added will be assigned a DNF and will receive only start points and no placement or finishing points.

Speed Zones – Speed Limits

SPEED ZONE PENALTIES are assessed for exceeding the speed limit in any zone indicated on the GPS files and included in Course Notes. Zones, speeds and data points are listed below. If you are speeding in controlled speed zones you will receive time penalties. *Not good!!*

SCORE Stella III EVO devices collect approximately 20 data points per mile or one every 3 seconds to determine speed violations in controlled speed zones. A penalty will be assessed for each data point that exceeds designated MPH speed limit for each speed zone.

➔ **Time Penalty is 9 seconds for each mile per hour over Speed Zone Limit at each data point.**

For example: Maintaining the maximum speed of **60 mph** you will travel 1 mile in 1 minute.

- If you travel **61 mph** for one mile with 20 Data Points x 9 seconds per DP, you will receive a 180 second penalty and your average speed for that mile will be **20 mph.**
- If you travel **62 mph** for one mile, your average speed with a 360 second penalty will be **10 mph.**

There are Twenty-Four (24) Speed Zones
