About MAG-7 Pits

MAG-7 has been racing Baja since 1967 and this is what we love to do! For the Baja 500, MAG-7 will have pits staged approximately every 55-60 miles. Our full service pits provide experienced crews who are there to support your race effort! Our pits are stocked with oil, lubes, power tools, air tools, welders, generators, CO2, jacks, electrical power, radio comms and more! We will haul your race fuel to the pits you designate and we supply all of the dry breaks, Jaz cans and 11-gallon dump cans. Give us your tires, spare parts and supplies and we will haul it all out to the pits for you. Racing in Baja is our passion...let us help your team get to the finish line! Online registration will close on Sunday, May 29th.

Questions about MAG-7 pit support? Please contact our Race Director Paul at 1-650-996-9494.
