LATE STARTERS - A competitor who is late for his assigned start time will start at the back of the class that is currently being interviewed on the ramp. If SCORE officials determine it is their procedures that caused start delays or last-minute adjustments to the start order, your time will be adjusted to when you are actually given the green flag.

Start Line will close 10 minutes after last competitor is scheduled to start unless late start is approved by Race Director.

9. Checkpoints and Sportsman Shortcut

CHECKPOINTS - Times shown in Race Information are APPROXIMATE based on projected number of entries for each event. These times are for your reference during the event.

4-WV Classes: If you are running late but feel you can still make the finish within your designated closing time limit you can continue on. However, keep in mind that local traffic may believe that all race vehicles have passed and not be looking for late competitors on the road or highway. Proceed with extreme caution at your own risk.

Moto/Quad Classes: If you are running late you will not be allowed to continue on. This is a precaution as 4-wheel vehicles will be overtaking slower riders.

Close time for Check 1 may be extended 1-Hour past normal time to allow for possible early problems.

Mileages for each vehicle category will vary due to sections of course being separate for Pro and Sportsman 4WV and Moto/Quad course routes.

10. Speed Zones, VCPs and Other Penalty Information

Controlled Access Areas – Actions and Compliance

Driver or Rider of Record is responsible for the conduct of all persons registered for their team including all team personnel, guests and air support crews. All persons must have signed waivers and wear a SCORE issued wristband while in any controlled access area.

If any team member in any controlled access area who is not following these rules, the team will be penalized 15 minutes for first occurrence, and will be disqualified (DQ'd) if a second infraction occurs.

TIME PENALTIES – Following sections outline different types of infractions that will result in time penalties. Time penalties are added to your recorded on-course time to determine overall finish position.

A Participant finishing within the 18 Hour Time Limit, but who exceeds this time limit when penalties are added will be assigned a DNF and will receive only start points and no placement or finishing points.

SPEED ZONE PENALTIES are assessed for exceeding the speed limit in any zone indicated on the GPS files and also listed in this document. If you are speeding in controlled speed zones you are being tracked and recorded and will receive time penalties.

SCORE Stella devices collect approximately 20 data points per mile or one every 3 seconds to determine speed violations in controlled speed zones. A penalty will be assessed for each data point that exceeds designated MPH speed limit for each speed zone.

➔ Time Penalty is 9 seconds for each mile per hour over Speed Limit at each data point.

For example: Maintaining the maximum speed of 60 mph you will travel 1 mile in 1 minute.

- **Traveling 61 mph for one mile with 20 Data Points x 9 seconds per DP, you will receive a 180 second penalty (3 min.) and your average speed for that mile will be 20 mph.**
- **Traveling 62 mph for one mile, your average speed with a 360 second penalty (6 min.) will be 10 mph.**

11. Tracking and Timing

EXTREMELY IMPORTANT - Anube III EVO and SPICA devices are used for tracking and LiveTime transponders are used for timing. ***Participants finishing the race must make sure that these critical devices are turned in to Anube and LiveTime representatives immediately after crossing the finish line.***

© 2025 SCORE-International

All competitors that DNF must also be certain to return these devices to Anube and LiveTime personnel at the end of the race. If not returning through the race start location, you must contact the address on the lease agreement to make arrangements to ship devices. - *Devices must be received by specified deadlines*. *Ship devices to the following locations:*

Anube: Anube Sport USA - 641 E. San Ysidro Blvd., #B3-1258, San Ysidro, CA 92173

LiveTime: LiveTime LLC – 2841 Allied St., Ste B, Green Bay, WI 54304

Any racer who finishes this event without a tracking device for whatever reason will be classified as DNF (Did Not Finish), and will not receive placement or finisher points.

➔ ***NOTICE:*** **Tampering with or covering these tracking or timing devices in any manner will result in an automatic disqualification (DQ) !!!**

IMPORTANT: You are responsible for damage and return of Stella device. (Retail value up to $1300). Race day insurance may be available to protect from damage while racing but DOES NOT cover lost or stolen units. Carrying this device on your person is for your safety should you become separated from your moto/quad.

12. Race and Radio Communications

12-1) INFORMATION REQUIRED – It is imperative that SCORE Relay have current radio information from each team for communication, safety, and medical support purposes. Submit the information up to and including race day at score-international.com > Race Info > select race event logo > Score Relay Radio Required Information. Be certain your radio information is current!

12-2) WISE WORDS FROM SCORE RELAY GROUP - *Expect the Unexpected AT ALL TIMES!*

Communications in remote areas are a challenge for everyone involved in racing. SCORE Channel 151.625 is universally recognized for communications in Baja, but even this operation has terrestrial limitations and there are remote areas where there will be absolutely no VHF communications.

You must remember there will be times on the course where VHF communication may simply be unavailable. It imperative that you understand that in remote areas first responders and help can be a very long way off and it is your responsibility keep this in mind and stay 100% focused during the race!

➔ ➔ ***Be Race Smart - Be Safe - Have a Backup Plan in Place!!***

NOTE: When you are unable to contact SCORE Relay you will be on your own for communications. Please plan accordingly. The SCORE Relay Team strongly recommends that every competitor have secondary satellite-based communications in the vehicle and a list of Emergency numbers to call.

SCORE Relay will be coordinating race communications. We will try to answer instant messages, but sometimes calls move very fast and we are too busy for status checks when the channel is Code Red.
