About MAG-7 Pits

MAG-7 has been racing Baja since 1967 and this is what we love to do! For this San Felipe 250, MAG-7 will have pits staged approximately every 50 miles. Our full service pits provide experienced crews who are ready to support your race effort! Our pits are stocked with oil, lubes, power tools, air tools, welders, generators, CO2, jacks, electrical power, radio comms and more! For full service we will haul your race fuel to the pits you designate and supply all of the dry breaks, Jaz cans and 11-gallon dump cans. Give us your tires, spare parts and supplies and we will haul it all out to the pits for you. Racing in Baja is our passion...let us help your team cross the finish line! Online registration will close on Sunday, March 26th.
