Latest Pre-Running Rules
GPS Files for the Entire Course
Pre-Running from the Start and Finish Line Only

Score has just received pre-run permissions from the local authorities. The start to mile 10.3 can only be pre-run on Monday evening Nov. 13 from 5pm to 10pm. The maximum speed is 37mph (60kph). There will be no other pre-running of this section available. Failure to comply with the day and speed restrictions could jeopardize the entire start. Teams attempting to pre-run this section other times will be subject to penalties by local authorities and possible SCORE penalties.

Miles 10.3 through 19.73 will be open starting on Monday, Nov. 13 at 8am. This section can be pre-run on Tuesday and Wednesday. To assist you with locating the pre-run start at RM 10.3 Score has provided a GPS KML file for your use.

New GPS files in several formats are now available on the Score Website at http://score-international.com/raceinfo/special-gps-files/

Review the file options carefully before you download. We have provided several different options for each team to choose from. Here is an overview of options provided:

- **KML file for access to RM 10.3**
- **Full course files in KML, GPX, and USR**
- **Start of first 40 miles in KML, GPX, and USR**
- **New Finish Line files in KML, GPX, and USR**

The entire U.S. SCORE team is enroute to Ensenada; we wish all teams the best of luck and will see you in Ensenada on Sunday, and La Paz later in the week.
