Desert Challenge Course Has Changed!

The SCORE Desert Challenge's two days of racing will be on a significantly changed race course from the originally planned layout. It became necessary to re-route part of the race course because of irresolvable land-use issues.

The complete schedule for next week's two-day Lucerna Hotels & Resorts Tijuana 22nd SCORE Desert Challenge will now feature three groups instead of two on both Saturday and Sunday. Each group will compete for two laps over the challenging 33.7-mile course for 67.4 total miles each day.

Course will include two checkpoints and a remote pit location will be located at approximately Rm 3.2.

Updated Schedule of Events for entire Desert Challenge weekend is now posted under RACE INFO on our SCORE website. A preliminary course map is also available on our website.

Reminder - Pre-running is for four-wheel vehicles only on Friday and Saturday, September 14th and 15th. No motos or quads.

Motos and quads will have exclusive use of the course for pre-running on Sunday, Sept. 16th.
