Qualifying drivers and co-drivers who submitted a notarized waiver do not need to attend on-site registration. However, someone from the team must come pickup your Driver Packet and Qualifying Information.

All others must attend on-site registration on Tuesday. The qualifying location and course map will be provided at on-site registration. If a Qualifying Driver has not signed a waiver, the team will not receive this information. You cannot send a team member into on-site registration to pick up this information without the driver waiver having been signed.

Qualifying drivers will be issued an additional wristband that must be worn at qualifying and must be on the driver at the start line. Any qualifying team at race start without the driver wearing the qualifying wristband will be moved behind those with wristbands.

All race vehicles attempting to qualify must have current chassis inspection tags. If your chassis tag is not current, contact Tech@score-international.com. Tags must be current for qualifying day. Chassis tags will also be checked at race day start.
