Baja 400 Critical Weather Advisory

All Baja 400 Pre-running is SUSPENDED thru Sat., Sept. 10th!

Torrential rains are pounding the entire Baja 400 racecourse and there are numerous reports of extremely heavy rainfall and flooding. Conditions on sections of the Baja 400 course are unknown at this moment.

This heavy rainfall can subject racers pre-running the course to flash flooding and danger of debris trapping them in the mountains.

Current forecasts predict the storm will begin to subside on Sunday. SCORE recommends all teams check local weather information regularly before attempting to resume pre-running after this storm.

As soon as practical, SCORE will evaluate course conditions and advise of any changes or revisions.

Based on projected weather forecasts, all activities of Baja 400 week will continue as planned!
