Bulletin #2

San Felipe 250 Race Info has A New Look

Starting with the San Felipe 250, SCORE has updated the formats for documents previously titled *Racer Brief* and *Penalty Bulletin.* These documents have been replaced by a *2024 Racer Guide* that covers year-long race operations and *San Felipe Race Information* that contains complete information specifically for this San Felipe event.

Both new documents will be available Thursday at 6pm PST on the SCORE Website at Race Information > Select the San Felipe 250 logo > individual documents will be listed.

Racer Guide

Replaces the previous Racer Brief and contents have now been separated into a document titled Racer Guide. For future races, this document will post when registration opens. The Racer Guide contains information that typically does not change from race to race and will be an excellent reference for new race teams to use to become familiar with the event process.

All race teams should review this document on a regular basis to ensure there are no updates. Any updates will be noted by date at top of document and any revisions will be highlighted in red.

Race Information

Specific race information that was previously found both in the Racer Brief and Penalty Bulletin is now incorporated into a single document. Important race information including pre-running, event schedule, course specifications, checkpoints and speed zones and timing procedures and potential penalties are now in one document.
