IMPORTANT… It is critical that you stage at the times shown above!!!

START/FINISH RAMP AREA – This is a controlled access area. Only banded race participants (Driver/Co-Driver or Navigator in vehicle or Rider/Co-Rider on moto/quad have access to this area.

START INTERVALS BY CLASS - 4-WHEEL CLASSES

TT and TT Legends – Start at one (1) Minute Intervals
Class 1 – Starts at 30 Second Intervals
3 Minute Gap after last Class 1 start
TT Spec – Starts at 30 Second Intervals
All following Classes – Start at 30 Second Intervals

LATE STARTERS - A competitor who is late for his assigned start time will start at the back of the class that is currently being interviewed on the ramp. Elapsed time of a late starter begins at their DESIGNATED START TIME, not actual late start time. Late starters must follow SCORE official's directions for late start procedure to avoid a penalty. If SCORE officials determine it is their procedures that caused start delays or last-minute adjustments to the start order, your time will be adjusted to when you are actually given the green flag.

Start Line will close 10 minutes after last competitor is scheduled to start unless late start is approved by Race Director.

9. Checkpoint Locations & Open / Close Times

CHECKPOINTS - Times shown in Race Information are APPROXIMATE based on projected number of entries for each event. These times are for your reference during the event. If you are running late but feel you can still make the finish within your designated closing time limit you can continue on.

However, keep in mind that local traffic may believe the race vehicles have passed and not be looking for late competitors on the road or highway. You must proceed with extreme caution at your own risk.

Close time for Check 1 is often extended 1-Hour past normal time to allow for possible early problems.

Mileages for each vehicle category may vary due to sections of course being separate for 4WV and Moto/Quad course routes.

Failure to follow checkpoint personnel directions may result in an additional penalty.

10. Speed Zones, VCPs and Other Penalty Information

Controlled Access Areas – Actions and Compliance

Driver or Rider of Record is responsible for the conduct of all persons registered for their team including all team personnel, guests and air support crews. All persons must have signed waivers and wear a SCORE issued wristband while in any controlled access area. If any team member in any controlled

access area who is not following these rules, the team will be penalized 15 minutes for first occurrence, and will be disqualified (DQ'd) if a second infraction occurs.

TIME PENALTIES – Following sections outline different types of infractions that will result in time penalties. Time penalties are added to your recorded on-course time to determine overall finish position.

A Participant finishing within the 12 Hour Time Limit, but who exceeds this time limit when penalties are added will be assigned a DNF and will receive only start points and no placement or finishing points.

SPEED ZONE PENALTIES are assessed for exceeding the speed limit in any zone indicated on the GPS files and also listed in this document. If you are speeding in controlled speed zones you are being tracked and recorded and will receive time penalties.

SCORE Timing devices collect approximately 20 data points per mile or one every 3 seconds to determine speed violations in controlled speed zones. A penalty will be assessed for each data point that exceeds designated MPH speed limit for each speed zone.

➔ Time Penalty is 9 seconds for each mile per hour over Speed Limit at each data point.

For example: Maintaining the maximum speed of 60 mph you will travel 1 mile in 1 minute.

- **Traveling 61 mph for one mile with 20 Data Points x 9 seconds per DP, you will receive a 180 second penalty (3 min.) and your average speed for that mile will be 20 mph.**
- **Traveling 62 mph for one mile, your average speed with a 360 second penalty (6 min.) will be 10 mph.**

IMPORTANT: You are responsible for damage and return of tracking devices and timing units up to the retail value of $1300. Race day insurance may to be available to protect from damage while racing. Insurance DOES NOT cover lost or stolen units. If available, you will purchase this insurance from equipment suppliers when signing lease agreements.

SPICA TRACKER for MOTOS and QUADS – Failure to transfer SPICA device between riders at each rider change will result in a penalty of 10 minutes for each checkpoint where SPICA is not carried by rider. Carrying this device is for your safety should you become separated from your moto/quad.

12. Race and Radio Communications

12-1) INFORMATION REQUIRED – It is imperative that SCORE Relay have current radio information from each team for communication, safety, and medical support purposes. Submit the information up to and including race day at score-international.com > Race Info > select race event logo > Score Relay Radio Required Information. Be certain your radio information is current!

12-2) WISE WORDS FROM SCORE RELAY GROUP - *Expect the Unexpected AT ALL TIMES!*
Communications in remote areas are a challenge for everyone involved in racing. SCORE Channel 151.625 is universally recognized for communications in Baja, but even this operation has terrestrial limitations and there are remote areas where there will be absolutely no VHF communications.

You must remember there will be times on the course where VHF communication may simply be unavailable. It imperative that you understand that in remote areas first responders and help can be a very long way off and it is your responsibility keep this in mind and stay 100% focused during the race!

➔ ➔ Be Race Smart - Be Safe - Have a Backup Plan in Place!!

© 2025 SCORE-International

NOTE: **When you are unable to contact SCORE Relay you will be on your own for communications. Please plan accordingly. The SCORE Relay Team strongly recommends that every competitor have secondary satellite-based communications in the vehicle and a list of Emergency numbers to call.**

SCORE Relay will be coordinating race communications. We will try to answer instant messages, but sometimes calls move very fast and we are too busy for status checks when the channel is Code Red.

Call this number if you have an Emergency and do not have clear communications to the SCORE Relay Team. This number is for EMERGENCY ONLY - NOT FOR STATUS REQUESTS!

SCORE Relay Race Frequency 151.625

SCORE Relay Direct Line 562.279.0700

Direct Phone Line 011 52 646.194.8705 for Emergency ONLY - Line is both Voice and Text

SCORE Relay is available to receive both English and Spanish

If calling *(Baja)* phone numbers from U.S. you must first dial +52 before Baja numbers listed above

▶ Monitor this 151.625 channel a sufficient amount of time before speaking to be certain you are not 'walking' on someone else's emergency.

RADIO TRANSMISSIONS - If two or more teams are using the same frequency, the team requesting emergency access to shared frequency has top priority. Failure to observe this policy will result in penalty or disqualification to the team failing to relinquish the frequency for an emergency request,

13. Other Race Stipulations

SPECTATOR INJURY OR PROPERTY DAMAGE - Race competitors engaging in intentional and/or direct physical contact with a spectator or spectator's property may incur penalties at the discretion of the SCORE Race Director. If the Race Director determines contact was accidental, he may elect to not issue penalties. No penalty is assessed if spectator property is placed or thrown in front of race vehicle or is the property of the offending race team.

All allegations of wrong doing must be submitted within one (1) hour after the last scheduled finisher in class the offending vehicle is entered in, and must be supported by video evidence. Penalties based on severity of each specific situation.

FAILURE TO COMPLY WITH OFFICIAL'S REQUEST - All race participants and crew members are subject to the various jurisdictional duties of all SCORE race officials, and may not subject any race official to improper language, abusive conduct, or other demeaning actions. This also includes actions placing SCORE personnel including staff, checkpoint and course workers safety in jeopardy. Refer to General Regulations G10.

PIT LOCATION PENALTIES - All pits must be located on RIGHT SIDE of pavement ONLY... NO EXCEPTIONS! Never pit less than 30 feet and no more than 50 feet off the course. Do not pit on the outside of a turn or within 250 feet of the exit of a turn. NO Pitting on highway surface at any time!
