RACER GUIDE
Racing with SCORE
In Baja California, Mexico

Updated March 14, 2026 (Updates In RED)

This Racer Guide outlines important information for SCORE Race Events. It contains information for all SCORE races including onsite registration requirements, tech/contingency days, race day, course information and post-race activity. This Racer Guide, Race Specific documents, Race Information, Controlled Access, all documents, emails, or text communications are all supplements to the current SCORE Rule Book. Failure to read and comply with race documents may result in penalties or disqualification. These documents are all information to assist you with your adventure. Document will periodically be updated with additional information. Updates will be indicated by revised date at the top of document. Updates and revisions will be highlighted.

Separate Race Information documents are published for each event. Race Schedule will be posted online under the race logo for the current event when Registration opens for the event. Complete Race Information will be posted when GPS files and course notes are available (Refer to the Schedule of Events section for each race.) Review your Driver/Rider Packet created for each event you receive at onsite registration. All other race information is posted on the SCORE website > Race Info > select the specific race logo. Additional race information also may be sent electronically, and/or reviewed at the Drivers Meeting.

CAUTION - All competitors are reminded that off-road racing is an inherently dangerous activity that can result in serious injury or even death. *YOU MUST BEAR THE ULTIMATE RESPONSIBILITY FOR YOUR OWN PERSONAL SAFETY AND THE SAFETY OF OTHERS WHEN PRE-RUNNING, RACING or PARTICIPATING IN OTHER EVENT ACTIVITIES.*

CAUTION – Plan for the unexpected. During the events you will experience a wide range of temperatures. There is always the possibility you could be stranded up on a mountain overnight with freezing temperatures or in the desert with extreme heat. Include the possibility of being stuck out on the course for an extended period and plan accordingly!

CAUTION - SPECTATORS - It is important to remember that SCORE cannot regulate the conduct of spectators. Be advised that spectators may engage in malicious activity by building ramps, digging ditches, and placing objects on the course. Course marking signs may be altered or removed. *BE ALERT!!* Use extreme caution in crowded areas or when spectators are putting themselves in danger by standing on or too close to the course.

CAUTION – HIGHWAYS, ROADS AND ON RACECOURSE – EXPECT THE UNEXPECTED AT ALL TIMES DURING BOTH PRE-RUNNING AND RACING!! Roads used by the public may be used for sections of this racecourse. You must expect, at all times, to encounter local traffic on the racecourse, especially oncoming traffic during pre-running and during the race. Remember… Local citizenry may be totally unaware that this racecourse passes through their area and will not be expecting a race vehicle or chase vehicle entering the road or crossing a road from either side.

Race vehicles or any team affiliated vehicles are not allowed to go backwards on the course at any time. No chase or any other team vehicles are allowed on the course at any time during the race. Reported violations will result in disqualification (DQ) or severe penalties. Use EXTREME CAUTION when approaching road crossings and intersections! Slow down, look all directions, and proceed only when it is safe to do so!

1. General Information -

1-1) RACER MEETINGS – ATTENDANCE IS MANDATORY

Meetings will be held prior to each event. Random draw for attendance may be conducted. Any team called and not in attendance will be penalized 1 hour. One or two banded team representatives MUST attend this racer meeting. See Schedule in Race Information for date, time and location. If Tech is running late, send a senior team member or DOR to the meeting.

1-2) AIRCRAFT & UAS (DRONE) REGISTRATION REQUIRED – If your team is utilizing a helicopter, fixed-wing aircraft or UAS (drone), you must pre-register the aircraft and pilot or UAS (drone) operator with SCORE. To register aircraft, go to score-international.com > Race Info > select Aircraft Registration to obtain a Registration form and Aircraft and UAS (drone) waiver form along with instructions for a Certificate of Liability required for SCORE. All registrations must be submitted TWO WEEKS prior to the race to *aircraft@score-internatoional.com.* If your registration and documents are not complete, you will not be notified of the meeting and thus will not have flying privileges.

© SCORE International

1-3) AIRCRAFT PILOT SAFETY MEETING – Aircraft pilot and UAS (drone) operator participation is MANDATORY. Advance signing of waivers and submission of an insurance certificate is mandatory or no operating privileges will be granted. See each Race Information document for date, time and location. Some meetings maybe conducted in person, via zoom or conference call. For assistance, contact *aircraft@score-internatoional.com.* If aircraft or drone is used for commercial filming or photography, it must be registered with SCORE as a media aircraft and a licensing fee paid. Drones must be registered and proof of insurance coverage provided to SCORE. Refer to SCORE Rule Book, GL 8 in General Regulations and Policies for flight rules. IMPORTANT – All aircraft and UAS (Drones) must observe a no-fly zone of 250 yards (228m) radius in all directions from the Start-Finish line. Failure to observe this no-fly zone will result in penalties for any race team or media personnel contracting the errant aircraft or UAS.

1-5) COMPLETE ANUBE FORMS / PURCHASE ASSEMBLY KIT AND COMPLETE SCORE RELAY RADIO INFORMATION PRIOR TO LEAVING FOR THE RACE. Complete Anube Lease Agreement and submit Agreement electronically to Anube

If you do not have the STELLA bracket, power cords, and Antenna required, you will need to order the assembly kit in advance direct from Anube - Allow several weeks for delivery. Stella III EVO kits, Stella III upgrade kits and brackets can be purchased during Chassis inspection hours. O*nsite purchases are cash only. Refer to Section 8 for additional details. Power cords are required to be wired into your battery.*

Complete the SCORE RELAY RADIO FORM ONLINE AND SUBMIT IT TO SCORE WEATHERMAN. This is critical for SCORE to be able to talk with your team during the race. If we do not have the information and there is an emergency we may not be able to locate your team for assistance.

1-6) ENVIRONMENT

- All competitors must do their part to protect and preserve the Baja ecological environment. Please instruct your team that it is mandatory and extremely important to properly dispose of all solid and liquid waste. CAUTION – Do not leave tires along the racecourse or anywhere in the desert! This is un-sportsman like and disrespectful of Baja and its gracious people. *TAKE YOUR FLAT TIRES AND LIQUID AND SOLID WASTE WITH YOU TO AVOID PENALTIES.*

1-7) INSURANCE COVERAGE

– You MUST be listed on the official SCORE Entry List for each event, and your team entry must be PAID IN FULL before SCORE insurance coverage will be in effect. Please review Section 13 in this document for Liability and Medical insurance coverage.

1-8) WHAT TO DO IN CASE OF AN ACCIDENT WHILE PRE-RUNNING OR RACING IN MEXICO

- In case you or a crew member are involved in an accident while pre-running or during a race in Baja, Mexico, there are certain steps that must be followed. You must review and understand these IMPORTANT STEPS that are outlined in Section 14, Page 14 of this Racer Brief.

2. Race Registration Information

IMPORTANT STEPS BEFORE STARTING REGISTRATION: Step 1. Purchase a SCORE Membership Step 2. Contact SCORE for a race vehicle number assignment. (702-407-3059)

2-1) REGISTRATION

Online Registration and Ensenada Office Registration dates and times are listed in the Schedule of Events. Payment in full is required before the close of Registration. After the deadlines, all Registrations must be done in person at race site during registration hours. Late fees will apply if there is an unpaid balance or your team has not registered or are a walk-in.

NOTE: Co-drivers / co-riders who have completed memberships and registrations online and paid fees can continue to pick up bands on Tech/Contingency days.

Individual registrations and individual signed digital online waivers are required for each of the following participants:

- **Each Driver, Co-driver, Rider, Co-rider, and Navigator Must Register**
- All banded Participants and team members or guests entering SCORE Controlled Access Areas must have signed a waiver and have submitted it to Registration - Maximum of five (5) bands are available per team to access the post-race area. Go to score International.com > Race Info > Controlled Access section for details.
- Waiver forms must be signed by each individual to be issued a SCORE wristband.
- Wristbands must be worn at all times during event activities.

© SCORE International

2-2) ONSITE RACE REGISTRATION DATES AND HOURS - Days and hours are listed in the Schedule of Events for each event. Registration is required for each individual team member going to be in or on a vehicle. **NO walk-in registrations accepted after 4:00 pm the day before Tech/Contingency for your class.**

- **►► Even if you registered online or in the Ensenada office, YOU MUST COMPLETE ONSITE REGISTRATION BEFORE ENTERING VEHICLE IN TECH / CONTINGENCY LINE!**
- **► IMPORTANT! Person OPERATING VEHICLE MUST BE Banded Driver / Co-Driver / Rider or Co-Rider, No navigators, Team Members, Media or guests are allowed in restricted Tech/Contingency area. Refer to General Regulations GE 3 for a definition of Navigators.**
- **► Drivers / Co-Drivers / Navigators and Riders / Co-Riders are each required to register and sign online digital waiver forms. If there is no signed waiver from the DOR / ROR on file by the close of registration, the entry will be withdrawn from the event and not permitted to qualify.**
- **► You MUST bring your driver's license or photo I.D .with you to registration. Drivers/Co-drivers/Riders/ Co-riders sixteen (16) years of age or older must present a valid driver's license, Navigators are only required to present a photo I.D. (Refer to the Minor Policy for anyone under eighteen (18) and GE 3.**

2-3) INFORMATION PACKET

- At registration, each entry receives an envelope containing valuable race information that *you must read and thoroughly understand!* Packet includes current Racer Information document, course Map, and any last-minute changes to information previously published.

2-4) ADDING CO-DRIVERS / NAVIGATORS / RIDERS / CO-RIDERS

- Registered DRIVER or RIDER of RECORD MUST authorize additional Co-Drivers, Navigators and Co-Riders to their entry.

2-5) NO LATE REGISTRATION OR LATE TECH ON RACE DAY - No Exceptions!

3. Pre-Running and Pre-Race Information

3-1) See Race Information for each specific event for dates, times and course location and restrictions.

Pre-running is your opportunity to view the course and make your notes for race day. Careless and thoughtless actions and destroying property during pre-running can impact future pre-run accessibility.

Remember that the pre-run period is a privilege. We are being allowed to use roads frequently used by

residents and neighboring ranch owners. These are their roads, and we must respect them and avoid any

action causing an accident.

SCORE will take steps to ensure safe pre-run activity. SCORE staff will be present at various randomly

selected points along course during PRE-RUN days. Observers will be checking speeds and overall safe

vehicle operations, especially on local roads.

There are three new rules that have been implemented during PRE-RUNNING for all SCORE events. STOP

AT CROSSROADS. For references, SCORE will include STOP waypoints at Road Crossings in the GPS file, and

these will also be marked with physical signs. Only those marked in the official GPS file.

1. **PRE-RUN SLOWLY IN TOWNS**. SCORE will include in the GPS file and with physical signs, one mile

before entering and one mile after leaving or passing a town, where we must drive slowly.

2. **BE PATIENT - DO NOT PUSH / PRESS or MOVE OTHER VEHICLES.** SCORE asks you to PRE-RUN

patiently if you encounter another competitor who may be going slower or even completely stopped. This is

not the race. Please avoid pushing/moving or endangering other competitors or local vehicles on the road.

SCORE will be extremely vigilant in ensuring compliance with these above three new rules beginning. A

penalty will be imposed at the discretion of the RACE DIRECTOR for the following:

a) If you are reported, with evidence, of breaking any of these rules or,

b) If SCORE personnel observes the breaking any of these rules,

This means you will be starting the race with a penalty already in place!

DO NOT GO BACKWARDS ON RACECOURSE AT ANY TIME WHILE PRE-RUNNING, AND DO NOT RUN AT RACE SPEEDS... THIS INCLUDES ALL

© SCORE International

CHASE AND SUPPORT VEHICLES. PERSONS NOT REGISTERED TO RACE CANNOT BE PRE-RUNNING AS YOU MAY BE A DANGER TO YOURSELF AND OTHERS.

Remember… You are a privileged guest enjoying the hospitality of Baja!

3-2) TRANSPORTING RACE FUEL

– Drums and dump cans containing fuel cannot legally be transported across the border into Mexico. Only fuel in vehicle tanks is allowed. VP is currently the Official SCORE fuel supplier. You can possibly arrange for your fuel to be delivered at race site or to other locations.

3-3) QUALIFICATIONS - SELECT CLASSES

– Qualifications for select classes may be included as part of the race weekend. Refer to the Schedule of Events and Rulebook for details.

4. Tech Inspection and Contingency Days

4-1) ADVANCE CHASSIS INSPECTIONS for 4-wheel vehicles

– SAVE TIME - If vehicle needs required inspection, or is due for re-inspection, make an appointment to have the inspection done prior to race week. To schedule, call Dan Cornwell +1 (619) 572.8245 or email *tech@score-international.com. or Federico Montes* 011 52 646.127.0346 *(Baja)* .

4-2) CHASSIS INSPECTION / Stella III EVO Bracket Check / Transponder Installation & Pay

Deposit. Chassis inspection and Anube assembly purchase and installation assistance dates and locations for each event are in the Race Information Schedule of Events for each event. The above actions are available on Inspection days only, not on Tech Day.

4-3) TECH DAYS– Includes Contingency / Tech Inspection / Transponder Check and Stella Tracking Device Installation for all classes. You MUST complete your race registration before placing your vehicle in the tech line!! Vehicle will not be allowed to enter tech line until vehicle registration is complete.

Reminder - All four-wheel vehicles entering the SCORE designated areas must be operated by two registered race participants. They must always remain in the vehicle, unless a need for a personal break. Additional registered participants are not allowed in the Tech/Contingency area.

We highly recommend for each 4-Wheel vehicle that the DOR/ROR operate the vehicle through Tech/Contingency. However, we will allow two co-drivers to bring a vehicle through, but no individual banded as a navigator will be allowed unless the TT Legends class. It is the responsibility of the DOR to ensure the Participants bringing a vehicle through Tech has the skill set to do so safely and with respect for other teams. All multiple seat four (4) wheel vehicles must have two persons.

Moto's/Quads may have two banded team members in the restricted area and the moto/quad must be moved through the line on the driver side of four (4) wheel vehicles for visibility.

NOTE: Ironman class, for the ROR who would like a second person with them, bring a signed Controlled Access waiver form for this second person to Registration. You will be provided one (1) special colored band for someone to assist you. Make sure that person has the skills to safely ride a moto/quad in a crowd in the event of an emergency.

➔ **TECH LINE POLICY - A BANDED PARTICIPANT** *(Banded Driver/Co-Driver, or Rider/Co-Rider* **must operate the vehicle at all times moving through the tech/contingency inspection line.** All motos and quads must go through the line on the drivers side of four (4) wheel vehicles. **All classes must travel the entire Tech/Contingency route and participate in interview.**

Driving suits, helmets and HNR devices for each 4-wheel participant must be presented at tech inspection to receive required stickers for this event. All Moto and Quad riders must present helmets for inspection. Minor participants must bring their safety gear and appear in person to have gear approved for correct fit. If you do not bring your safety equipment through Tech/Contingency with you, the only option is to bring your safety equipment to check area directly behind the Tech Inspection area for required inspection.

4-4) STELLA III EVO DEVICE ASSISTANCE

- Stella representatives will be at the Chassis Inspection location during chassis inspection hours. They will provide technical assistance and verification of mounting and wiring for your Stella assembly installations. See Section 8 for more information on Stella III EVO Devices. If you have not pre-paid for these Stella III and EVO bracket kits, *onsite payment must be cash only.*

Stella III EVO Bracket Assembly Kits will be available to purchase if you have not already done so. Refer to Section 8-1 and 8-3 for additional information. Stella SPICA (pronounced SPEAK-ah) devices will also be used at this event. There is no cost and no wiring required. These devices and the Stella unit will be distributed to participants in Anube area during tech day(s). We recommend you have a small pouch to place the device in

© SCORE International

and place it near the DOR or for Moto/Quad teams in a backpack.

4-5) CONTINGENCY DECLARATION

– *SCORE 2026 Contingency Award listings provide an overview of awards available from SCORE Contingency Program participants. For complete details of each sponsor's program, we recommend contacting the individuals at sponsors. Individual awards are at the discretion of each sponsor and are subject to change without prior notification. Award listing is on the Race Info page, select Contingency, 2026 Award List Contingency.*

Review the contingency awards available from sponsors to see if you are eligible. To claim awards from each contingency sponsor, determine the products you are using and submit the following information direct to those sponsors.

1. Your name, email address and a shipping address for possible award.
2. Name of Event, dates and finish position in event (published in official results).
3. Proof of product purchase (sales receipt) or photo of product installed and in use. Photos of sponsor stickers must be clearly visible on vehicle.
4. Additional photos and/or video showing product in use on your race vehicle.

You must submit *Contingency Award Requests within 30 days after official finish* is announced to be eligible for any contingency awards from any SCORE contingency sponsor.

Award Listings below were in effect at time of publication and subject to change without notification.

SCORE 2026 Contingency Award listings provide an overview of awards available from SCORE Contingency Program participants. For complete details of each sponsor's program, we recommend contacting the individuals at sponsors listed below. Individual awards are at the discretion of each sponsor and are subject to change without prior notification.

4-6) NON-COMPLIANCE ITEMS IDENTIFIED – If Technical Inspectors identify any rule or a safety issue that is not in compliance, the specified item(s) must be resolved before vehicle arrives at the start line. If the item or issue is not resolved, you may not be allowed to start the race. If you are not allowed to start, you will not be refunded any portion of your entry fees.

5. Race Day Staging and Start

EXTREMELY IMPORTANT HYDRATION INFORMATION - Difficult sections of SCORE courses can create the increased need for adequate and continuous hydration for all competitors. Do not wait until race morning to start to hydrate! Experts recommend starting your personal hydration at least 48 hours before strenuous exercise! Believe us… our courses will be strenuous!

Moto and Quad Riders are required to have a hydration pack and rear facing high-intensity flashing blue LED light on helmet or upper area of backpack. Minimum hydration-pack capacity is one (1) liter, and two (2) liter capacity is required if temperature is expected over 80° F (26.7° C). Riders will be checked during Tech and again in start line, and not allowed to start without this equipment.

➔ All vehicles will be checked for adequate water supply for participants just prior to start. Vehicles without sufficient water supply will not be allowed to start until adequate water is in vehicle!

5-1) RACE DAY INFORMATION

– Refer to the Racer Information and Schedule of Events for specific race information on the following:

- Total Course Mileage - Both in miles and kilometers
- Deviation (Shortcut) Classes, Beginning, Ending and Mileage (if applicable)
- Race Time Limit - Total Hours for your class
- Average Speed - Both in mph and kph

5-2) RAMP AND START LINE

– Restricted area – Only participants starting event either in vehicles or on Motos/Quads, and SCORE staff, and SCORE media are allowed in entire start area on Raceday.

5-3) STAGING & START TIMES FOR ALL CLASSES

– Race Information document includes all start information for each event. There are separate staging and start times for motos/quads and 4-wheel vehicle classes.

ABSOLUTELY NO REFUELING IN STAGING AREA AT ANY TIME!

5-4) STARTING GAP

- There will be a time gap between the last Sportsman Moto or Quad starter and the first SCORE Trophy Truck starter. Refer to Race Information for Class Start Order and gap times.

© SCORE International

5-5) LATE STARTERS

- A competitor who is late for his assigned start time will start at the back of the class that is currently being interviewed on the ramp. The elapsed time of a late starter begins at your DESIGNATED START TIME, not your actual late start time. Late starters must follow SCORE official's directions for late start procedure to avoid a penalty. If SCORE officials determine it is their procedures that caused start delays or last-minute adjustments to the start order, your time will be adjusted to when you are actually given the green flag. Start Line will close 10 minutes after last competitor scheduled to start and no additional vehicles will be allowed to start nor entry fees refunded.

6. Race Day Course Information & Regulations

EXTREMELY IMPORTANT – Be certain you include adequate survival supplies in planning for this event. Must include food, water and warm apparel in case you are stranded overnight.

6-1) START/FINISH RAMP AREA

– This is a controlled access area. During race starting period, only banded race participants (Driver/Co-driver and Navigator and Rider/Co-Rider) in vehicle or on moto/quad have access to this area. Banded race participants will be allowed on finish ramp ONLY while their team vehicle is being interviewed on the ramp after the race. Banded team members and guests are allowed only at exit end of ramp. This requirement is necessary for safety reasons for all staff and participants. **Teams violating this rule may be penalized or disqualified.**

6-2) SPECTATORS AROUND COURSE – Racers must be extremely alert AT ALL TIMES for potential spectators who may disregard the barriers anywhere around the racecourse. Be alert for possible spectator traffic that can be traveling in either direction on racecourse at any time! Some spectators may engage in actions like removing or repositioning course markings and creating boobytraps for racers.

6-3) RADIO FREQUENCY

- SCORE will use 151.625 (SCORE Relay) for the main race operations radio frequency. Please use this frequency to report an emergency, request assistance, or report out of race status. Refer to Section 9 for guide to monitoring this frequency. Be certain all crew team members know your team frequency, radio operation and how to contact SCORE Relay! **Refer to Page 11.**

6-4) SHARED RADIO FREQUENCIES

- If two or more teams are using the same frequency, team requesting emergency access to shared frequency has top priority. Failure to observe this policy will result in a penalty or disqualification to the team failing to relinquish the frequency for the emergency request,

6-5) COURSE MARKINGS

– The racecourse is marked with orange/white ribbon, orange signs/black arrows, green wrong way markers, and mile markers every Five (5) miles. Markings are not guaranteed to remain in place. All race teams are strongly advised to use the official GPS course file. Less than 1% of potential dangers are marked Make your own course notes for race day.

6-6) HIGHWAYS ARE RESTRICTED AREAS

- Pitting or performing any service of any kind is not permitted on any portion of any paved highway surface. You will receive a minimum penalty of 1 hour. The paved highway is considered a restricted area because use of the highways is subject to permission by the Mexican Federal Highway Police. Chase vehicle travel on the highway sections **MUST BE DONE** in a safe and prudent manner. Passing on highway section must be made on the left-hand side only and within the designated zone speed limit.

All competitors must possess a valid driver license and passport or at least have a copy of it while racing or pre-running in case you need an emergency international transport. All chase crews and team members should carry their passport and driver license as well.

6-7) SPEED ZONES

– Speed zones are established for all classes. Refer to Race Information for listing of speed zones. Speed limit for each zone is listed in this document. No overtaking or passing moving vehicles within last 100 feet (30.48m) when leaving a speed zone. Automatic DQ!

6-8) SPEED IN CHECKPOINT ZONES

- There are usually multiple full-stop on-course staffed checkpoints plus finish. All checkpoints have a **15-mph** speed limit from 150 feet before to 100 feet after each checkpoint. All locations are marked on GPS file and there will be physical markings on racecourse. Markings are not guaranteed to remain in place. All race teams are strongly advised to use the official GPS course file. Refer to Race Information for checkpoint speed zones and locations for this event. ***Penalty for speeding in any checkpoint zones is a minimum of 15 minutes!***

© SCORE International

6-9) REAR FACING BLUE LIGHTS - NO NERFING

- All Sportsman classes and Class 11 are required to display a rear-facing blue light illuminated at all times. High-intensity, minimum 100 lumen flashing blue lights will be MANDATORY for Motos and Quads. NO NERFING is allowed at any time on any "blue light" vehicles. Any reports of this violation may result in time and/or other penalties! ► ► Only above classes are allowed to run blue lights! – No others!

6-10) IMPORTANT -

AMBER LIGHTS - All 4-wheel race vehicles in ALL CLASSES are required to run a continually illuminated rear-facing AMBER light. *NO EXCEPTIONS!* If light is not working you will be stopped at next checkpoint.

6-11) COURSE COMPLIANCE

- Mandatory Stella III EVO devices will be used to identify course deviations. Washes are open only to the banks on either side and major silt beds are open. Short coursing is not allowed. Do not deviate from the official GPS course. It is essential to race using the official GPS course files and periodically check for any later updates posted on the SCORE website.

REMEMBER... Width of racecourse is limited to 60 feet (18.3 m) either side of center of course. If you deviate outside these course limits, you are NOT covered by SCORE insurance and you can be penalized!

6-12) HIGHWAY CROSSINGS

– Some Full Stop Checkpoints may be located at highway crossings. There is a 15 mph speed limit 150' before the stop and 100' past the stop at all checkpoints.

Clearly mark all road crossings on your GPS files for reference. You must be aware of all approaching road crossings. IMPORTANT: Be extremely cautious of cross traffic when crossing any highway!

6-13) PASSING – MOTOS AND QUADS

– If you are barely averaging the minimum speed listed for Sportsman classes , you must be prepared to be passed by the lead truck or buggy early in the event. Refer to Racer Guide for approximate time and mileage. *You must be EXTREMELY ALERT for trucks approaching from behind!*

Four-Wheel Vehicles in a position to pass a Motorcycle or Quad *MUST SIGNAL WITH STELLA DEVICE AND NOT ATTEMPT TO PASS UNTIL THE RIDER HAS MOVED TO THE SIDE OF THE COURSE. RIDERS MUST REMAIN AWARE OF APPROACHING TRAFFIC AND MOVE OVER AS QUICKLY AS POSSIBLE.*

SCORE strongly recommends when Moto/Quad riders are caught by the first 4-wheel vehicle you must remain super vigilant and GET OFF THE COURSE BEFORE you are caught by the next vehicle. Riders must pull off the course to a safe distance and wait for dust to clear and additional vehicles to pass before

re-entering the racecourse. Riders, if you try to outrun a four-wheel vehicle to avoid being passed, you will receive a DQ.

Riders, get off the course early: If you wait for the four-wheel vehicle to pull right up behind you before pulling off the course you will be a DQ.

Drivers, if you have trouble passing, be sure you get the correct number of the rider. *Moto and quad riders, never race in the dust of a four-wheel vehicle, you are putting yourself in "extreme" danger.* BEWARE of vehicles following very closely behind another vehicle!

BE AWARE AT ALL TIMES! If you are passed by a vehicle and you are still on course you are riding in the dust. Riders, if you are riding slow and you have been caught by the four-wheel vehicles you are in *"extreme"* danger and must bear full responsibility for your own safety.

6-14) PASSING - TRUCKS AND CARS

- Drivers: If you are tapped by a competitor move over… blocking traffic is un-sportsmanlike and you may be nerfed or penalized. Refer to Section 6-9 (above) for important restrictions on nerfing designated "blue-light" classes.

6-15) VIRTUAL CHECKPOINTS (VCPs)

– All Classes have consecutively numbered Standard VCPs and SPECIAL VCPs are identified by letters. Number of VCPs will vary for each event.

***The standard penalty for failure to clear a Numbered VCP within 120 feet is 10 minutes. Lettered VCPs must be cleared within 40 feet.* In order to avoid confusion regarding the locations of the VCPs, it is essential to race using the official GPS course file and check for updates on the SCORE website. *Review Race Information for VCP information and penalties.* VCP Data is FINAL – No Protests Allowed.**

6-16) ABSOLUTELY NO GOING BACKWARDS ON COURSE AT ANY TIME! - Going backwards

on the racecourse in a race vehicle or any chase or team vehicle at any time while race is in progress or pre-running can get your team a DQ. You will be reported!

© SCORE International

6-17) CHASE VEHICLES

– Drive safely at all times. Unsafe passing or dropping a tire off the road is the cause of most fatalities on Mexican Highways. You should be 100% prepared the day before the race. Expect the unexpected. Leave early and expect to be late to your destination.

Make sure each chase vehicle has copies of insurance for all of your other chase vehicles. Carry the largest fire extinguishers you can and have a good medic bag in each chase. Keep your passport and driver license with you should you need to be emergency transported to the United States. Have a list of cell phone numbers, SAT phone numbers and radio frequencies for your team and other teams. **Turn off your off-road lights when on public highways and roads!** No going backwards on the course at any time.

If you are speeding on the highway in a chase vehicle, you are endangering yourself and those with you. If you are in a chase vehicle that is being driven in a dangerous manner, tell the driver you are uncomfortable, and if that does not work, report it to your team manager. If dangerous chase team actions are reported to SCORE, the competitor that team is associated with may be penalized or disqualified from event.

CAUTION: Highways are patrolled by the Mexican Federal Highway Police. Speed limit on paved highways varies by speed zone. There may also be lower speed limits in many towns and villages. Speed Zones and speed limits for participants are listed in Penalty Bulletin. These limits also apply to chase vehicles. *You MUST observe all speed limits!*

6-18) OBSERVATION AIRCRAFT - Teams using aircraft (including drones) to monitor race vehicle progress are totally responsible for their pilot actions and safe aircraft operation during entire event. Refer to GL 8 in SCORE General Regulations for aircraft operations regulations for all SCORE events. Pilot(s) must attend Mandatory Pilots Meeting. See Race Information for date, time and location. Waivers are required for all pilots and drone operators along with a Certificate of Liability. All paperwork and request for privileges must be submitted two (2) weeks before the event.

NOTE: DOR and ROR race participants are directly responsible for actions of their flight crew as well as all their ground personnel. Participation in this meeting and signing of aircraft waivers is mandatory or no aircraft operating privileges will be granted.

6-19) TEAM PITS

- All pits must be located on RIGHT SIDE of pavement ONLY... NO EXCEPTIONS! Never pit less than 30ft (9.1m) or no more than 50ft (15.2m) off the course. Allow extra room for safety.

Do not pit on the outside of a turn or within 250 feet of the exit of a turn. Pitting is not permitted within 300 feet before and 100 feet after a checkpoint.

Use common sense and keep your team members safe! Improper pitting will result in a 30-minute penalty if protested, or if SCORE is provided with evidence of possible violations.

6-20) PIT REFUELING

- Fire is always a danger during refueling. All fueling personnel should wear adequate protective clothing gear, and persons should be assigned to specific extinguishing functions.

Position multiple fire extinguishers in the immediate refueling area during each stop. A minimum of three (3) 20 lb. ABC rated fire extinguishers should be in each pit and manned and ready for use at all times.

Grounding the race vehicle during the refueling stop is a must. All personnel using pressure and elevated tank fueling systems are required to wear helmets, face shields and flame-resistant clothing during refueling operations.

6-21) PIT SUPPORT ORGANIZATIONS

– Several professional pit support organizations will offer expert pit services to race teams for this event. Refer to PIT SUPPORT listing under the Race Info> event logo for information on each of these experienced pit support groups.

6-22) TIME ON COURSE – DRIVERS and RIDERS

will have a total number of hours from their designated start time to complete the designated racecourse. Average speeds for pro and sportsman classes are listed in the Race Information document.

6-23) OFFICIAL TIMING FINISH and FINISH LINE STOP

– After crossing under the official finish timing loop, be prepared to stop for your post-race wristband check. This stop must be made in a safe and controlled manner. Cones are leading into the timing loop; if you hit a cone, you will be penalized one (1) minute for each cone. You will be fined if you hit the timing loop.

© SCORE International

6-24) REPORTING STATUS IF YOU DROP OUT OF RACE

– If your vehicle becomes disabled anywhere on the course, and you cannot proceed further in the race; it is **IMPERATIVE** that you report your situation and position to the **SCORE 151.625** at SCORE Relay. We don't want to spend hours looking for you on the course when you have packed up and are on the way home. Please be considerate for all the personnel that are working very long hours to stage this challenging SCORE event!

6-25) DISABLED VEHICLES

- It is each competitors responsibility to retrieve their vehicle if it becomes disabled anywhere on the course. This possibility should be addressed during pre-race planning with your team. No retrieval vehicle may drive backwards on course **AT ANY TIME!** If vehicle is disabled with mechanical issues, actuate the Stella unit to alert racers behind you of your disabled vehicle!

6-26) SCORE MEDICAL HELICOPTER

- SCORE's medical helicopter is totally committed to supporting life-threatening emergencies. Use for any other purpose will take away the helicopter support needed for a critical emergency. If a SCORE medical helicopter is requested for any non-emergency service, you can be endangering someone's life. Deploying the SCORE medical helicopter for any non-life threating service request will be billed to the Driver or Rider of Record at the rate of $2500 per hour with a $5,000 minimum.

Total time billed will include re-fueling time. SCORE recommends all team members are trained on the proper radio procedures and use of the Stella lll EVO and SPICA devices to request life-threating medical assistance vs. non-life-threatening services. SCORE helicopter rate subject to change.

6-27) SPECTATOR INJURY OR PROPERTY DAMAGE

- Race competitors engaging in intentional and/or direct physical contact with a spectator or spectator's property may incur penalties at the discretion of the Race Director. If the Race Director determines contact was accidental, he may elect to not issue penalties. No penalty will be assessed if spectator property is placed or thrown in front of race vehicle or is property of the offending race team.

All allegations of wrong doing must be submitted within one (1) hour after the last scheduled finisher in the class the offending vehicle is entered in and must be supported by video evidence

Checkpoints

7-1) CHECKPOINTS

– There are designated full stop checkpoints plus timing finish line for this event. Open and close times will be shown in the **Race Information bulletin** based on projected number of entries. These times are for your reference during the event, and a guide for our checkpoint crews.

7-2) CHECKPOINT CLOSING TIMES - ALL MOTOS AND QUADS

- You MUST ARRIVE at each checkpoint before closing time. If late AT ANY CHECKPOINT, you will be stopped and your race is over

NOTICE: Failure to stop at a checkpoint as instructed will result in disqualification and no points awarded. Refer to Race Information for details.

7-3) CHECKPOINT CLOSING TIMES - TRUCKS AND CARS - IMPORTANT

– If you experience a race stoppage such as a blockage on the course that is beyond your control, or have problems and are running late, and the checkpoints in front of you have closed, you can continue on using extreme caution.

Be as cautious the same as if you were pre-running. Watch for local traffic at all times that may think all race vehicles have passed and will not anticipate race vehicles still out on the course

7-4) FULL-STOP PHYSICAL CHECKPOINT RULES -

Checkpoints may be located at paved road crossings. You are required to enter the coned area at each Physical Full-Stop Checkpoint at 15 mph in single file manner and come to a COMPLETE STOP at the stop sign. The checkpoint corridor is not considered part of the racecourse. Entering and exiting all checkpoints must be done in a safe and prudent manner in order to guarantee the safety of all checkpoint workers.

→ Passing is not permitted 300 feet before or 100 feet after a checkpoint. Not coming to a full stop or exceeding the **15-mph speed limit** from 150' before to 100' after the checkpoint will result in a minimum fifteen (15) minute time penalty! Refer to Race Information for additional information.

→ *Missing a physical checkpoint will result in a one (1) hour penalty for each checkpoint missed!*

7-5) HELMETS, HNR DEVICES, SAFETY HARNESS AND WINDOW NETS

- Helmets, HNR devices, seat belts and safety nets for all vehicle occupants must remain SECURELY FASTENED in place any time vehicle is in motion. Any violations reported by checkpoint captains or video evidence submitted by others will result in penalties assessed by the Race Director.

© SCORE International

7-6) OFF-ROAD LIGHT OPERATION

- All off-road lights on vehicle must be switched "OFF" when there is oncoming traffic. All front facing off-road lights and light bars must be turned off when vehicle is being operated on any section of racecourse that is on a paved highway or public road. Only two (2) small lights suitable for normal highway driving can be in operation on these highways and roads. These highway lights must be connected and operated by a separate auxiliary switch. All front facing off-road lights and light bars must also be turned **"OFF"** when in the 15 mph checkpoint zones. **Motos and quads** require only one (1) front facing light. A helmet mounted high intensity light is acceptable for this requirement.

➔ This regulation applies to all trucks, cars, UTVs, motos and quads. and also includes all team and chase vehicles. Violations by any of the above vehicle categories are subject to team penalties or possible disqualification from event.

At all SCORE events, Motos and Quads are required to have a rear facing high-intensity flashing **BLUE LED light** on their helmet or upper area of backpack. Light must be rated 100 lumens minimum and have DVF (Daylight Visible Flash) feature. Lights will be checked both during tech and again in staging area.

Stella Devices and Timing Transponders

8-1) Stella III EVO Systems (Mandatory)

- SCORE will be using the Stella III EVO and SPICA systems for all classes at each event. These devices are mandatory.

If you do not have the bracket, power cords, and Atenas required, you should **order the assemble kit in advance** direct from Anube website. Stella III EVO kits, Stella III upgrade kits and brackets can be purchased during Chassis inspection hours. **Onsite purchases are cash only.**

Stella and SPICA devices are mandatory and leased from Anube on a per race agreement, these fees are included in your entry fee. The Stella III devices require a race team representative to complete a lease agreement form. The form is available on the SCORE Race Info>select logo for the event. It is requested you complete the form online before you leave for the race to safe time for your team and others during tech.

You must be certain the Stella device is returned at the end of the event. *Tampering with or covering these devices in any manner will result in an automatic disqualification (DQ).*

➔ *Participants finishing the race in the allotted time must make sure that all Stella and SPICA tracking devices are turned into Stella personnel immediately after crossing the finish line.* Failure return equipment will result in your entry being listed as a DNF and you will not receive placement or finish points.

All competitors that DNF must return the tracking recorders to Stella Tracking located at the finish line. If you are not returning through the race start area, you must ship devices directly to Anube. Refer to Race Information for deadline and shipping information.

IMPORTANT: You are responsible for damage and return of Stella III EVO, SPICA units and transponders up to the retail value of $1300. Anube does offer race day insurance to protect from damage while racing. Insurance DOES NOT cover lost or stolen units. You will purchase this insurance while at the Anube station during Tech. Insurance cost will be payable directly to Anube. If the devices are not returned you may automatically be charged or prevented from racing again until the device or payment is received.

Anube Stella III EVO devices are available to lease for pre-running. Order device online at: *https://usa.anubesport.com/product-category/score-international.*

8-2) Stella III EVO ASSEMBLY KIT Required

– The assembly kit is a one-time purchase direct from Anube. Kit includes mounting bracket and hardware to permanently mount in/on your vehicle. The unit's power cords must be wired into your battery and the bracket must be installed prior to Tech so that the actual Stella III EVO device can be installed for race day. We suggest leaving brackets installed on your vehicle to be ready for your next SCORE race. IMPORTANT - Allow Minimum 3 - 4 Weeks for Delivery.

8-3) SPICA Devices

– All 4-wheel Vehicles, Motos and Quads will be using this device in addition to the Stella III EVO unit. This is an additional data logger and safety device. For 4-wheel classes, SPICA unit must be placed in a pouch and zip tied to the "A" pillar.

You can use any small pouch you may already have, or as an option, Anube will have a pouch available for sale that is custom made for the unit. The Anube pouch is custom fitted to the SPICA with a transparent panel that will allow you to read the display on the SPICA unit.

Moto and Quad riders MUST CARRY the SPICA unit on their person. Unit MUST be transferred from rider to rider. Failure to transfer unit will result in a 10-minute penalty for each checkpoint entered without the SPICA unit.

© SCORE International

SPICA devices will be distributed to all classes at start line or during Tech inspection day.

8-4) Stella III EVO and SPICA Information

- To learn about the Stella III systems and their operation, SCORE has informational videos and assembly information in both English and Spanish. *These videos and documents are on the SCORE website > Race Info > select SCORE Tracking.*

→ → SCORE highly recommends that in addition to DORs/Co-Drivers, Riders/Co-Riders, Navigators, all team members view the Stella III EVO video and learn how to operate the device in an emergency.

8-5) SCORE TIMING TRANSPONDER

- Transponders are REQUIRED and are for precise timing of all vehicles in the event. Transponders are rented by the team from Live Timing. You will be required to pay a device deposit while going through tech. A debit or credit card will be required. You must return the transponder at the end of the race to receive credit for returning the device.

8-6) PERSONAL TRACKING DEVICES

- It is HIGHLY RECOMMENDED that all riders and drivers have a personal tracking device that is in the vehicle or worn on their person and within reach AT ALL TIMES. This is a benefit to both your pit and chase personnel tracking your location during the race. *Your personal tracker should also be used during pre-running.*

9. Race and Radio Communications

9-1) RADIO FREQUENCY

– SCORE Relay will have VHF coverage for all events except the point-to-point peninsula runs on 151.625.

→ **PLEASE DO NOT ASK** *for status reports repeatedly every few minutes!*

9-2) SATELLITE COMMUNICATIONS

- All racers are required to have a satellite communication device at point-to-point Baja 1000 races. Race Operations will be managed via satellite communications.

9-3) INFORMATION REQUIRED

– It is imperative that SCORE has current radio information from each race team for communications, safety and medical support purposes. Submit information up to and including race day at *score-international.com > Race Info > Score Relay Radio Required Info*

WISE WORDS FROM THE RELAY GROUP - Expect the Unexpected AT ALL TIMES! Communications in remote areas are a challenge for everyone involved in racing. You must remember there will be times on the course where communication may simply not be unavailable. It imperative that you understand that in remote areas first responders and help can be a very long way off and it is your responsibility to keep these situations in mind and stay 100% focused during the race!

→ → **Be Race Smart - Be Safe - Have a Backup Plan in Place!!**

NOTE: When you are unable to contact SCORE Relay you will be on your own for communications. Please plan accordingly. The SCORE Relay Team strongly recommends that every competitor have secondary satellite-based communications in the vehicle and a list of Emergency numbers to call.

SCORE Relay will be coordinating race communications. We will try to answer instant messages, but sometimes calls move very fast and we are too busy for status checks when the channel is Code Red.

Call this number if you have an Emergency and do not have clear communications to the SCORE Relay Team. This number is for **EMERGENCY ONLY - NOT FOR STATUS REQUESTS!**

SCORE Relay Race Frequency **151.625 SCORE Relay Direct Line 562.279.0700** Direct Phone Line **011 52 646.194.8705 for Emergency ONLY** - Line is both Voice and Text **SCORE Relay is available to receive both English and Spanish**

If calling *(Baja)* phone numbers from U.S. you must first dial +52 before Baja numbers listed above

→ **Monitor this 151.625 channel a sufficient amount of time before speaking to be certain you are not 'walking' on someone else's emergency.**

9-4) SCORE RELAY CHANNEL ETIQUETTE

- If you are monitoring SCORE Relay on **151.625**, please unplug your mic. If you feel it must be plugged in, be sure it is in a proper microphone hanger. There is nothing worse than a stuck mic during an emergency; someone's life or an urgent race situation can be at stake. Radio checks should be done quickly and **ONLY** before the race. **READ THIS** → When you activate SCORE Relay channel, **WAIT** and **LISTEN** before speaking…there may be an emergency that you would be interrupting. The Relay person can hear what

you cannot hear. Just because you do not hear anything does not mean there is not a Code RED life or death situation going on 200 miles from where you are located.

→ → **Monitor this 151.625 channel a sufficient amount of time before speaking to know you are not 'walking' on someone else's emergency.**

© SCORE International

9-5) REPORTING STATUS IF YOU DROP OUT OF RACE

– If your vehicle becomes disabled and you cannot proceed in the race; it is **IMPERATIVE** that you report your situation and position to SCORE Relay.

10. Post-Race Activities

10-1) UNOFFICIAL & OFFICIAL RESULTS

– Unofficial finishers will be posted in the media area periodically during the race. Unofficial finishers will post online, at race site, and the media area. See the Schedule of Events in Race Information Bulletin for locations. Any inquiries on race results must be resolved with SCORE Race Director Jose "G". Time and location listed in the Schedule of Events section of Race Information. Late inquiries are not accepted!

10-2) SCORING

– Driver or Rider of Record must either start or finish the event to be eligible to receive start, placement and finish points. If a DOR/ROR **does not start or finish the event,** the entry will receive zero points and be eligible only for trophies and race payout. A DOR/ROR designated as a non-finisher (DNF) will receive starting points only, and a DOR/ROR who is disqualified (DQ) will receive zero points for this event. Refer to General Regulations GDC 2, GDC 3 for additional information.

10-3) PROTESTS

– To protest another competitor, you or one of your authorized crew members, must submit a detailed written protest to SCORE. The written protest **must be filed within one (1) hour** after the last scheduled finish of the final competitor in your class. The written protest must be delivered to Race Director Abelardo Grijalva ("Jose G"). Protest should be accompanied with video evidence if available.

SCORE may consult with the Competition Review Board, and the matter will be heard as soon as practical. Contact Abelardo (Jose) Grijalva or Rodolpho ??>to request forms.

To file a technical protest, you must present a written protest within 30 minutes after the last scheduled finish of the final competitor in your class and submit a $1000 cash fee to SCORE Technical Director Dan Cornwell. Contact Abelardo (Jose) Grijalva , Rodo or Dan Cornwell to request protest forms.

Special TT Spec Protest – A $10,000.00 protest fee is required to file a technical protest of a TT Spec race vehicle.

10-4) REQUEST FOR "GOOD SAMARITAN" TIME CREDIT -

If you stop to assist another racer who is in need of *immediate emergency medical assistance*, or a life-or-death situation, you may be eligible for a time credit for the time you are stopped. The *written request* for time credit must be delivered by you, or a member of your team, to Race Director Jose A. Grijalva, **within one (1) hour** after the finish of your class. Forms are available from Race Director Jose Grijalva. Request must include vehicle number of competitor you assisted, race mile, time stopped and re-started and description of assistance given

10-5 →IMPORTANT POST-RACE ACTION REQUIRED… *Be sure that timing transponders and Stella tracking devices are turned into their personnel immediately after crossing the finish line*. Failure to turn in the equipment will result in your entry being assigned a DNF and you will not receive placement or finish points.

All competitors that DNF must return the tracking recorders to Stella Tracking located at the finish line. If you *DO NOT RETURN THROUGH* Start area, you must ship devices directly to Anube. Refer to Race Information for deadline to return devices. If units are not received at Anube by specified deadline, you will be charged for full retail price of the unit!

Ship device to: Anube Sport USA // 641 E, San Ysidro Blvd #B3-1258 // San Ysidro, CA. 92173. Shipping instructions are also on the Anube Lease Agreement Form that you signed.

10-6) TROPHIES

– Awards Celebration time and location will be listed in the Race Information document. You must arrange to have your trophy picked-up by one member of your team if you are not going to personally claim your trophy. No trophies can be brought back across the U.S. border by SCORE International.

11. Media Coverage for the SCORE Baja Races

11-1) DEADLINE for Team Media Credential registration

is listed in the Event Schedule.

Any team with personnel who will be shooting still and video for the team website and team social media platforms must complete and submit the application located under the MEDIA tab on the SCORE website homepage. There will be NO late, onsite SCORE Team Media Registration at the event. You will be contacted by

© SCORE International

SCORE Media staff regarding the status of your application.

11-2) TEAM MEDIA CREDENTIALS

- Team media personnel pre-registered and approved by SCORE for Team Media Credentials must go to Media Center at race site during Media Registration hours *(See Event Schedule)* to sign waivers, be banded, receive badge, and purchase vest.

Media credentials are required or your personnel will be required to put their equipment away and exit media access areas. ***Badges, wristbands, and vests must be worn at all times including anywhere on the course. If anyone shares their badge, vest or other media identifications with another individual, their credentials will be revoked for that race and perhaps future races.***

11-3) LIVE VEHICLE TRACKING

– Available at www.score-international.com during the race.

13. SCORE Insurance Coverage:

13-1 GENERAL LIABILITY INSURANCE

INBURSA SEGUROS CIVIL LIABILITY INSURANCE
– Following are Terms and Conditions of Civil Liability for participants in the 2026 SCORE Off-Road Races.

General Liability $1M – Contact Enrigue Melero +52 646-974-8631

13-2) ACCIDENT MEDICAL INSURANCE INFORMATION

Contact Rigo Lozota +52 664 266 8889

13-2) General De Serguros S.A.B – Overview of Accident Medical Insurance for participants. Your entry fee MUST Be "Paid In Full" to activate the insurance coverage and all co-drivers/co-riders navigators must be listed on your entry to be covered pre-running. Additional co-drivers, co-riders and navigators can be added at registration but will only be covered by the insurance after your entry is updated in Registration and fees paid if required:

Eligible Participants:

Registered & Banded Drivers, Co-Drivers, Navigators, Riders and Co-Riders.

Accident coverage for up to six (6) eligible participants is provided as part of the entry fee. This coverage is activated when entry is paid in full. Coverage for additional participants (seven (7) or more persons) is available for purchase. Contact SCORE Registration to add over 6 participants.

Covered Activity:

While participating in the sponsored and supervised activities of the policyholder, starting the opening day of pre-running.

Coverage included while engaging sanctioned off-road racing event on an approved and/or sanctioned course. Practice away from sanctioned course is not included, and coverage concludes at end of race time limit or when a vehicle is disabled and no longer able to compete.

12,500.00 Maximum Accident Medical Benefits (Covered services are only availalbe at Baja Mexico faciilities.)

$ 1,000 Deductible (Payable at time of service)

Benefits Include: Accidental Death máximum benefit $30,000

Exclusions:

- Emergency Medical Evacuation
- Participation in activity not specifically covered by policy
- Intentional self-inflicted injury
- Conditions that are not caused by covered accident
- Suicide or attempted suicide
- Any treatment, service or supply not covered by policy
- War or act of war, whether declared or not

© SCORE International

- Commission of, or attempt to, commit a felony
- Participation in civil riots, strikes or popular movements or terrorist acts
- Dental
- Sickness or disease
- Accidental Burn and Disfigurement
- Aircraft
- Coma Benefit
- Injury or loss while being legally intoxicated
- Bereavement & Trauma Counseling Benefit
- Injury or loss attributed to the use of drug/narcotics
- Repartriation Benefit
- Injury covered by occupational benefits
- Dismemberment

Submission of Claim:

All claims must be submitted at the time of injury or no later than 7 days after an insured's loss.

Insuring Company: General De Serguros S.A.B

Servicing Medical Facilities for SCORE Baja Events

Refer to Individual Race Information Bulletins that are created and posted on our website for each event.

→ If calling *(Baja)* phone numbers from U.S. you must first dial 011-52 before Baja numbers listed above

The insurance coverage information outlined above is a description of the accident medical insurance but it does not list all of the policy exclusions, that apply to the policy contract. The interpretation of insurance conditions is governed by Mexican law and will always apply and in the courts of Mexico City.

14. What to do in Case of an Accident While Pre-Running or Racing in Mexico

When calling regarding an accident specify that you are a participant of the SCORE (Specify race). In case you are involved in an accident while pre-running or during a race in Baja, Mexico, you must know and follow these steps.

14-1) Always carry your valid Driver's License, Passport, Vehicle Registration and Proof of Current Insurance Policy valid for Mexico with you at all times.

14-2) If the accident occurs DURING PRE-RUNNING, and you are registered and covered by the SCORE insurance, immediately contact one of the phone numbers listed below. Have clear information of where the accident happened including Race Mile, Kilometer marker, date and time, full details of what happened, if there are injuries or fatalities, and if you should require an ambulance or rescue to be dispatched to the scene of the accident.

Contacts During Pre-Running or General Liability Insurance Questions

Jose A. Grijalva President & 011 52 646.162.7336 *(Baja)* race-director@score-international.com

Race Director 011 52 646.189-7087 *(Baja)* Jose G. (Alternate number)

Rodolfo Fernandez Co-Race Director 011 52 686.140.9778 *(Baja)* rodo@score-international.com

14-3) If the accident occurs **DURING RACE WEEKEND**, contact the SCORE Relay using channel **151.625** and **report the accident immediately.** Always have clear information of where the accident happened, including Race Mile, Kilometer marker, date and time, full details of what happened, if there are injuries or fatalities, and if you should require an ambulance or rescue to be dispatched to the scene of the accident. If you are not able to contact SCORE Relay and there are injuries or fatalities, contact SCORE at one of the above numbers.

14-4) DO NOT LEAVE THE SCENE OF THE ACCIDENT... and especially if there are injuries or fatalities; it is against Mexican laws. Leaving the scene of the accident will only make things much worse.

14-5) Get the support of the Insurance Company adjustor as they will assist you with Legal advice and proper representation. It is imperative that this is done immediately after the accident. Complete accident report must be filled out as soon as you finish the event but **it should be reported immediately!**

15. Important Emergency Contact Numbers During SCORE Baja Races

SCORE Relay Race Frequency **151.625**

SCORE Relay Direct Line 562.279.0700

Direct Phone Line **011 52 646.194.8705 for**
